

Hale Polylana® beanie

SKU: TP238651

Categorie: Articole textile

The Hale beanie is made of Polylana® fiber - a low-impact alternative to 100% acrylic and wool fibers - saving water, energy and reducing CO2 emission during the production and dyeing process. Comparing with acrylic fiber, for each Hale beanie the following impact savings are realized: 2.77 liter water, 5.16 MJ energy and 0.06 kg GhG (CO2). Impact savings are based on validated Life Cycle Assessment (LCA) data. Made of 1x1 rib knit with Polylana® fiber and acrylic with a 12-gauge density. The ideal choice for those who value fashion while caring for the environment.
