

Genomic tracks for chromosome 10p11.21. The top track shows the gene structure of POU3F1, with exons represented by boxes and introns by lines. Below are tracks for the POU3F1 gene expression across various tissues (Brain, Blood, Bone Marrow, etc.) and a track for the POU3F1 gene expression across various tissues (Brain, Blood, Bone Marrow, etc.). The bottom track shows the POU3F1 gene expression across various tissues (Brain, Blood, Bone Marrow, etc.).
